

# First Responder for Serious Scouters

Do you want advanced first aid skills  
in your unit?

Explorer Post 525, the Aurora Medical Team, is offering our annual First Responder medical certification to Scouters and Scouts. First Responder is the highest non-professional medical rating for volunteers.

Training is March 1 to March 22, Saturdays and Sundays, 9am-4pm, (3 ½ weekends) at the Johnson Habitat. Cost for BSA youth and adult is \$130, which includes books, BP cuff, scope, supplies, and certification. You will need to attend all sessions.

This is an adult level presentation, so adults and older youth are appropriate for this training.

Registrations are now open. If you are interested please find more information and apply online at [www.auroramedteam.org/firstresp.htm](http://www.auroramedteam.org/firstresp.htm)
