You should plan on being in place by 9am each day. Class will start on schedule.

Please read the chapters before the day they are being presented. We recommend you also do the review questions at the end of each chapter. Answers are in the back of the book. Additionally, to help you prepare, we have additional questions for each chapter. They are available online at:

<http://www.auroramedteam.org/tng/FirstResponderReviewQuestions.pdf>

Beginning with day 2 the day will start with a quiz on the material from the previous day. These are scored and are part of your final grade. There is also a final examination on the last day. There are multiple hands-on practice sessions, some of these are also graded.

We have put a lot of effort to make this an enjoyable and educational event. We look forward to meeting you on March 6th.
